

## Testimonials for WEVA 2014 PVL Player & Coaches Clinic

The WEVA 2014 Players Clinics in Rochester, New York was a great experience for my 12-year-old daughter. The professional coaching staff helped my daughter amazingly in just one 12-hour clinic.

My daughter explained to me that this is the first camp or clinic where she felt connected to the coaching staff and the other young girls who attended right away. The WEVA clinic was well organized with rotations focused on an evaluation of the girl's skills and focused on each of their talents for growth. "The staff didn't just place us all together and hand me a t-shirt at the end of the day, it was like they had seen me play before".

The WEVA coaching staff was impressive. The level of professionalism and instruction is worth a fortune to us parents who are looking to find a safe and worthwhile investment for our children and their talents. The clinic was affordable and even provided a warm catered dinner for girls. The coaching staff for the clinic included members of the Western Empire Premier Volleyball League team. They showed true leadership and character with their commitment of giving back to the WEVA region. If you want real growth for your child's talents that works and is effective – where you know you will get the results- sign up for a WEVA clinic and be sure that the outcome will be positive. I can't thank the WEVA organization enough for organizing and offering such a great opportunity to the athletes in western New York. They were able to assist in the continued development of her love of volleyball and improving her skills. We will most defiantly be signing up again next year!

- Jackie T

My daughter got a lot out of the WEVA Clinic held at the Armory. She had an opportunity to receive one on one feedback from top professional and former Division I players. She also enjoyed the playing time and competition at the end of the day as it gave her a chance to incorporate skills covered during the clinic. She thought it was a great Clinic and really enjoyed the day!

- Dennis B

I just wanted to personally thank you, your family and those wonderful young ladies. For me, it was exceptional and I took a lot away from it. I thought it was all excellent but the discussion on mental toughness and mental endurance and stamina was huge for me. I loved the player perspective it really gave me some great ideas to empower kids and approaches. I literally took something away from each athlete. Thank you for the opportunity and I would jump on the chance again! Next time I hope I can get more athletes from our program there too!

- Tracy G

The clinic was fantastic. I learned a lot and my daughter had a great time, especially working with Alyssa. Thank you to you, Dave, the outstanding coaches, and everyone who made it such a great day. We look forward to next year.

- Dean K

I absolutely loved it. I will be sending my coaches next year. Thank you for the opportunity.

- Rob Arciolla

I want to thank you and everyone involved with the WEVA clinic for allowing Paul to speak and educate your parents. I heard from friends that attended the clinic it was really great for the players and have even heard from some parents already that they appreciated the college seminar. Please let us know if we can be a part of this again next year or anytime during the year. It was a great opportunity to address some great athletes and parents.

- Liane Crane (CAPlus)

I was lucky enough to attend the Player/Coaches Clinic put on by WEVA on July 15<sup>th</sup> 2014. The players from the WEVA PVL team did a great job communicating not only with the player but the coaches as well. The instruction given was concise, fast paced and fun for the players. There was time for quite a bit of individual attention, which was great. The coaches were given the opportunity to interact with the instructors during the drills as well as a group question and answer session. The player question and answer period was informative as well. You could see it in the player's faces that they were totally focused on what was being said. I would make it a priority to attend any future clinics that may be offered. The only suggestion I would have for the future would be setting up some kind of video recording of the drills to refer back to.

- Dave Tytler (Caledonia-Mumford Varsity Volleyball Coach & Director, LAVA VBC)
